## An Easy Way to Reprint Invoices. Regular & Fulfillment

Tammy Mason - 2017-09-15 - in Customer

### **An Easy Way to Reprint Invoices. Regular & Fulfillment**

Did you know that any place you can drilldown to the new G/L transaction detail for an invoice (regular or Fulfillment orders) that you can click on the INVOICE bitmap and see the actual PDF of the invoice??

This may be especially useful for Fulfillment invoices as they do not have the Order history option to use for reprinting. You can go into the G/L Transaction Detail view OR you can go into a customer's A/R (Accounts Receivable) history, click on the invoice # to get into g/l trans detail, then click on the INV bitmap.

**Note:** *You will need to have the operator security set up for this option to work.*
