Epayment Overview

PromoPayment makes online credit card processing easy. You will be able to accept and process credit cards for application to orders or payments to open invoices by using the Epayment option in ASI SmartBooks. For more information about **PromoPayment** please contact Sales at: 319-266-7688.

The Epayment function performs both the **Receipts-New** and **Receipts-Allocate** transactions. You must still perform the **Receipts-Deposit** transaction.
