How Do You Create Attributes for a Matrix?

Tammy Mason - 2022-07-20 - in Quotes, Orders & Invoices

How Do You Create Attributes for a Matrix?

Use the default attributes or add new attributes to create a matrix template to utilize multiple times in Quotes, Order Entry, and Invoicing, or add a Matrix using these same Attributes “on the fly”.

Description	Status
Almond	Active
Antique Brass	Active
Apricot	Active
Aquamarine	Active
Ash	Active
Beige	Active
Birch	Active
Black	Active
Blue	Active
Blue Gray	Active
Blue Green	Active
Blush	Active

A list of common attributes for several sizes and colors has been provided to get started. However, add or edit additional attributes as necessary using the Attribute Resource under the Product tab.

Add additional attributes by selecting New.

Type in the Description and Save.

Attributes you don't want to use can be deleted or edited **UNLESS** they are used in a Matrix or anywhere within ASI SmartBooks. You can make an Attribute Inactive if you no longer wish to use it.
