An email receipt will be sent to the "Bill to" address email address on the order. This receipt contains transaction detail for the order's product lines, as well as the amount charged. A valid "Bill to" email address is required.

### Unposted/Authorized

Submitting a charge within the order does not post to the general ledger. If an order contains Unposted/Authorized charges, then this will be indicated in the Total expander as shown in the image to the right.

There will be a posting routine required in Epayment in order to show this charge as a deposit on the order.
